Gwinnett Center Medical Associates

Lawrenceville, GA

Check-in 500 patients a week

Have been using Phreesia since June, 2009

Why They Love Phreesia: Simple patient payments

Shari Crooker, the Practice Manager at Gwinnett Center Medical Associates has always appreciated Phreesia, but now that Phreesia collects patient balances and copays, appreciation has turned to love. Her staff no longer has to ask patients for payments, and patients enjoy the privacy of paying with Phreesia.

- ✳ **Increased copay collections:** With Phreesia, Gwinnett CMA collected 95% of its patient copays, amounting to two additional copays per physician that went uncollected every day prior to Phreesia. Assuming an average copay of \$20, Gwinnett CMA is on track to collect at least \$10,000 more this year in copays alone.
- ✳ **Decreased accounts receivable (A/R):** Using Phreesia to collect patient balances and verify insurance eligibility has contributed to a 7% increase in collections at Gwinnett CMA.
- ✳ **Easier credit card processing:** Phreesia has saved Shari's staff 6-8 hours a week by eliminating interruptions related to collecting payments. Shari can easily balance her statements with Phreesia's simple flat fee pricing. Now Shari knows exactly what she is paying for each month, without having to worry about constantly changing processing rates and equipment rental and statement fees.

We think that Phreesia could provide your practice with these same benefits. Please contact your Phreesia representative for more information.

Sincerely,

The Team at Phreesia

“As opposed to my credit card machines, Phreesia not only does the work of asking for and collecting payments, it is saving me thousands. It is easier and cheaper! There is one set fee, and I can finally balance my statements.”

- Shari Crooker,
Practice Administrator
