Woodbridge Medical Group

Woodbridge, NJ

Sees 120 patients a week

Has been using Phreesia since June, 2008

Why They Love Phreesia: Convenient patient payments

Before Phreesia, payment collection was an inconvenient process for Woodbridge Medical Group. Patients felt uncomfortable being asked for money, and the front desk staff's workflow was frequently interrupted by having to manually collect payments and print receipts for each patient. Now, Mary Smith, the Practice Manager at Woodbridge uses Phreesia to conveniently collect payments from all patients, and automatically print receipts. Open balances are also loaded into Phreesia to ensure that patients are prompted to pay their copays and balances.

- * **Frees up front desk staff's time:** Because Phreesia automatically calculates and collects payments from patients, office workflow is smoother and runs with fewer interruptions.
- * **Patients pay easily and privately:** Mary reports that patients prefer paying with Phreesia, because the process is quick and private.
- * **No more awkward conversations:** With Phreesia, patients don't have to feel embarrassed about owing money, and practice staff is saved from asking for payment in front of a crowded waiting room.

We think that Phreesia could provide your practice with these same benefits. Please contact your Phreesia representative for more information.

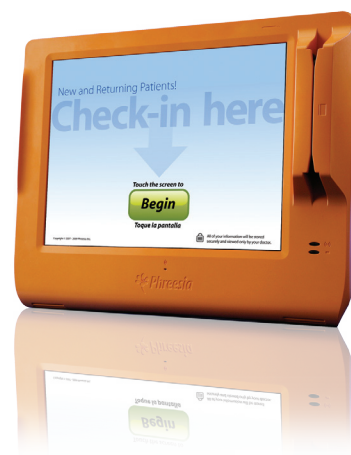

Sincerely,

The Team at Phreesia

"We use Phreesia for every patient; it helps remind them to pay. We look on the printout to confirm insurance eligibility, which helps us catch mistakes before issues go to billing."

- Mary Smith,
Practice Manager
