

PHREESIA FOR Azalea Health

Phreesia gives Azalea Health practices a comprehensive suite of tools to manage patient intake across a range of primary care and specialty settings. Our highly customizable solution provides an individualized patient experience, enabling healthcare organizations to better engage patients and activate them in their care.

With Phreesia, **Azalea Health** organizations can:

Streamline the patient intake experience and expand staff capacity

Close care gaps through targeted patient outreach

Simplify insurance verification and reduce manual steps with automated E&B checks

Improve financial health by automating patient payments and offering flexible payment options

Manage intake, appointments, outreach and waitlists for vaccinations, including COVID-19, influenza and others

Across Phreesia's network:

84% of patients check themselves in with Phreesia

5+ mins of staff time saved per patient check-in

91% of copays are paid at the time of service

97% of patients prompted with Phreesia clinical screening tools complete them

96% of patients are satisfied with their Phreesia experience

"Having Phreesia as our preferred integration partner demonstrates our latest commitment to enhance the intake experience for our growing network of rural healthcare organizations."

–Baha Zeidan, CEO, Azalea Health
