Increase practice revenue and have more meaningful visits

Phreesia

Collect more copays and balances at the time of service

Provide better care by administering PROs and screening tools before the visit

Save time and reduce manual clinical tasks

Phreesia helps practices succeed

1 Strengthen your bottom line

Capture payments at every step of the patient journey with payment plans, online payments, card on file and more. With Phreesia, you can seamlessly collect copays and balances by prompting patients to pay during intake—and get paid faster with secure, automated payment reminders that help patients understand what they owe.

2 Spend quality time with patients

Streamline interviews and minimize data entry by capturing patients' clinical data before they arrive. Plus, Phreesia lets your patients complete relevant patient-reported outcomes (PROs) and screening tools from wherever they feel most comfortable, giving you all the information you need to deliver sensitive, whole-person care.

Results from across our network

$200+ collected
with every initiated payment plan

22% increase
in balance collections within 6 months of implementation

7 hours saved
per provider per month by digitizing PRO completion

2X more
clinical screenings conducted when practices use Phreesia

"With Phreesia, I'm becoming a better diagnostician because patients can tell me about their social, family and medical history however they feel most comfortable. The integration with our EHR was so smooth, and our patients appreciate the option to pay with a credit card. Phreesia gives my staff more time to spend with patients and helps us provide excellent medical care."

– Board-certified family physician and geriatrician
