PS Year 5: uestions Answered

CMS issued the final rule for the fifth year of its Quality Payment Program (QPP), created by the Medicare Access and CHIP Reauthorization Act of 2015 (MACRA). CMS states that Year 5 the QPP is designed to:

• Ease the burden on MIPS-eligible organizations and ACOs due to the

- extreme circumstances of COVID-19
- Expand coverage of telehealth services to accommodate rise in virtual visits
- Utilize more meaningful, outcomes-based measures

Clinicians may choose between two tracks under the QPP

The Merit-based Incentive Payment System allows clinicians

MIPS

to earn performance-based payment adjustments based on the services they provide to their Medicare patients.

Advanced Alternative Payment Models (APMs) Clinicians who receive at least 50% of their Medicare Part B payments

or see at least 35% of their Medicare patients through an Advanced APM entity qualify to be APM participants. CMS estimates that between 196,000 and

252,000 eligible clinicians may qualify for the APM track in 2021 for payment year 2023.

CMS estimates that approximately

890,742 clinicians will be eligible for MIPS in 2021, which will determine MIPS

For Year 5, MIPS-eligible clinician types remain the same as 2020:

payment adjustments for 2023. That's up from approximately

Physicians Occupational Therapists

879,966 eligible clinicians in 2020.

- Nurse Practitioners

Physician Assistants

- Certified Registered Nurse Anesthetists
- Physical Therapists

Clinical Nurse Specialists

- Qualified Speech-Language Pathologists

Clinical Psychologists

Qualified Audiologists

Registered Dieticians or Nutrition

- Professionals

Are not a MIPS-eligible clinician type

Clinicians are NOT eligible for Year 5 of MIPS if they.

- Enrolled in Medicare after Jan. 1, 2021
- Meet any of the following low-volume threshold criteria: • Bill less than \$90,000 for Medicare Part B-allowed services
- See fewer than 200 Medicare Part B patients • Provide 200 or fewer covered professional services under the Physician Fee Schedule
- CMS estimates that approximately 734,715 clinicians will not be eligible for MIPS in 2021.

WHAT ARE THE KEY MIPS CHANGES FOR 2021?

The Quality performance category CMS added telehealth services weight was reduced from 45% to directly applicable to existing 40%, and the Cost performance episode-based cost measures and a

be weighted at 30% in 2022. CMS increased the minimum threshold to 60 points, (up from 45 points in 2020), for the new performance year. This means

60 MIPS points to avoid a

penalty.

category weight increased from

15% to 20%. Both categories will

CMS estimates there will be \$458 million in penalties and incentives redistributed in

-9% Because the MIPS program is budget-neutral, actual incentive payments are often below the top threshold. For instance, providers who achieved the maximum MIPS score in 2019 will see their 2021 payments go up by +1.79%, including both positive and exceptional performance adjustments. However, CMS reports that maximum incentives are expected to increase as the program's penalties increase. CMS projects the maximum bonus in 2023, based on 2021 data, will be 5.3%.
